EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Basile and Ms. Chadwell on September 27th, 2005.

The claims have been amended as follow:

Claims 2, 21, 22, 23 and 24 have been canceled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The specific limitations of (with respect to claims 6 and 18) "...the lip adjustor(s) comprises:

a first cord disposed along a length of the cavity of the respective lip, wherein the first cord comprises:

a first terminal end secured to a first point in the cavity of the respective lip; and a second terminal end extending outwardly from the cavity of the respective lip; a first toggle disposed on a portion of the first cord extending outwardly away from the cavity of the respective lip; a second cord disposed along the length of the cavity of the respective lip, wherein the second cord comprises:

a first terminal end secured to a second point in the cavity of the respective lip; and a second terminal end extending outwardly from the cavity of the respective lip; and

a second toggle disposed on a portion of the second cord extending outwardly away from the cavity of the respective lip", (with respect to claim 13) "...an oral cavity comprising:

an upper portion disposed on the upper interior surface of the upper member, wherein the upper portion comprises a back side joined to a front side to form a U-shaped structure, wherein the U-shaped structure comprises:

a concave end forming a second upper proximal end; and a planar end forming a second upper distal end; wherein the second upper proximal end is joined to the second upper distal end; an upper row of teeth disposed on a surface of the upper portion opposite the upper member; a lower portion disposed on the lower interior surface of the lower member; wherein the lower portion comprises a back side joined to a front side to form a U-shaped structure, wherein the U-shaped structure comprises:

a concave end forming a second lower proximal end; and a planar end forming a second lower distal end; wherein the second lower proximal end is joined to the second lower distal end; a lower row of teeth disposed on a surface of the lower portion opposite to the lower member; and a transition element joining the second upper distal end to the second lower distal end, wherein the transition element comprises a second opening aligned with the first opening of the connecting region of the main member" are not anticipated or made obvious over the prior art of record. For example, Mandle '645 and Angelotti '071 both disclose phonological manipulative tools which teach the use of a mouth and poseable tongue to demonstrate lip, jaw and tongue movements as they

relate to speech, however the prior art of record fails to disclose or teach a lip adjustor and an oral cavity with the above structural features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
